

Re:forest

We provide forestry with the ability to accurately locate and track trees

Key Features

-  **Add Tree** Enter tree info (location, species, and dates)
-  **Interactive Map** Visualization on map of trees
-  **Edit Tree Info** Can make updates to data
-  **Data Verification** Admins review and approve submissions
-  **Mobile-First** Optimized for phones and tablets
-  **Notifications** Get alerts for approvals and reminders
-  **Multi-User Roles** Different roles can do different things

Team Info

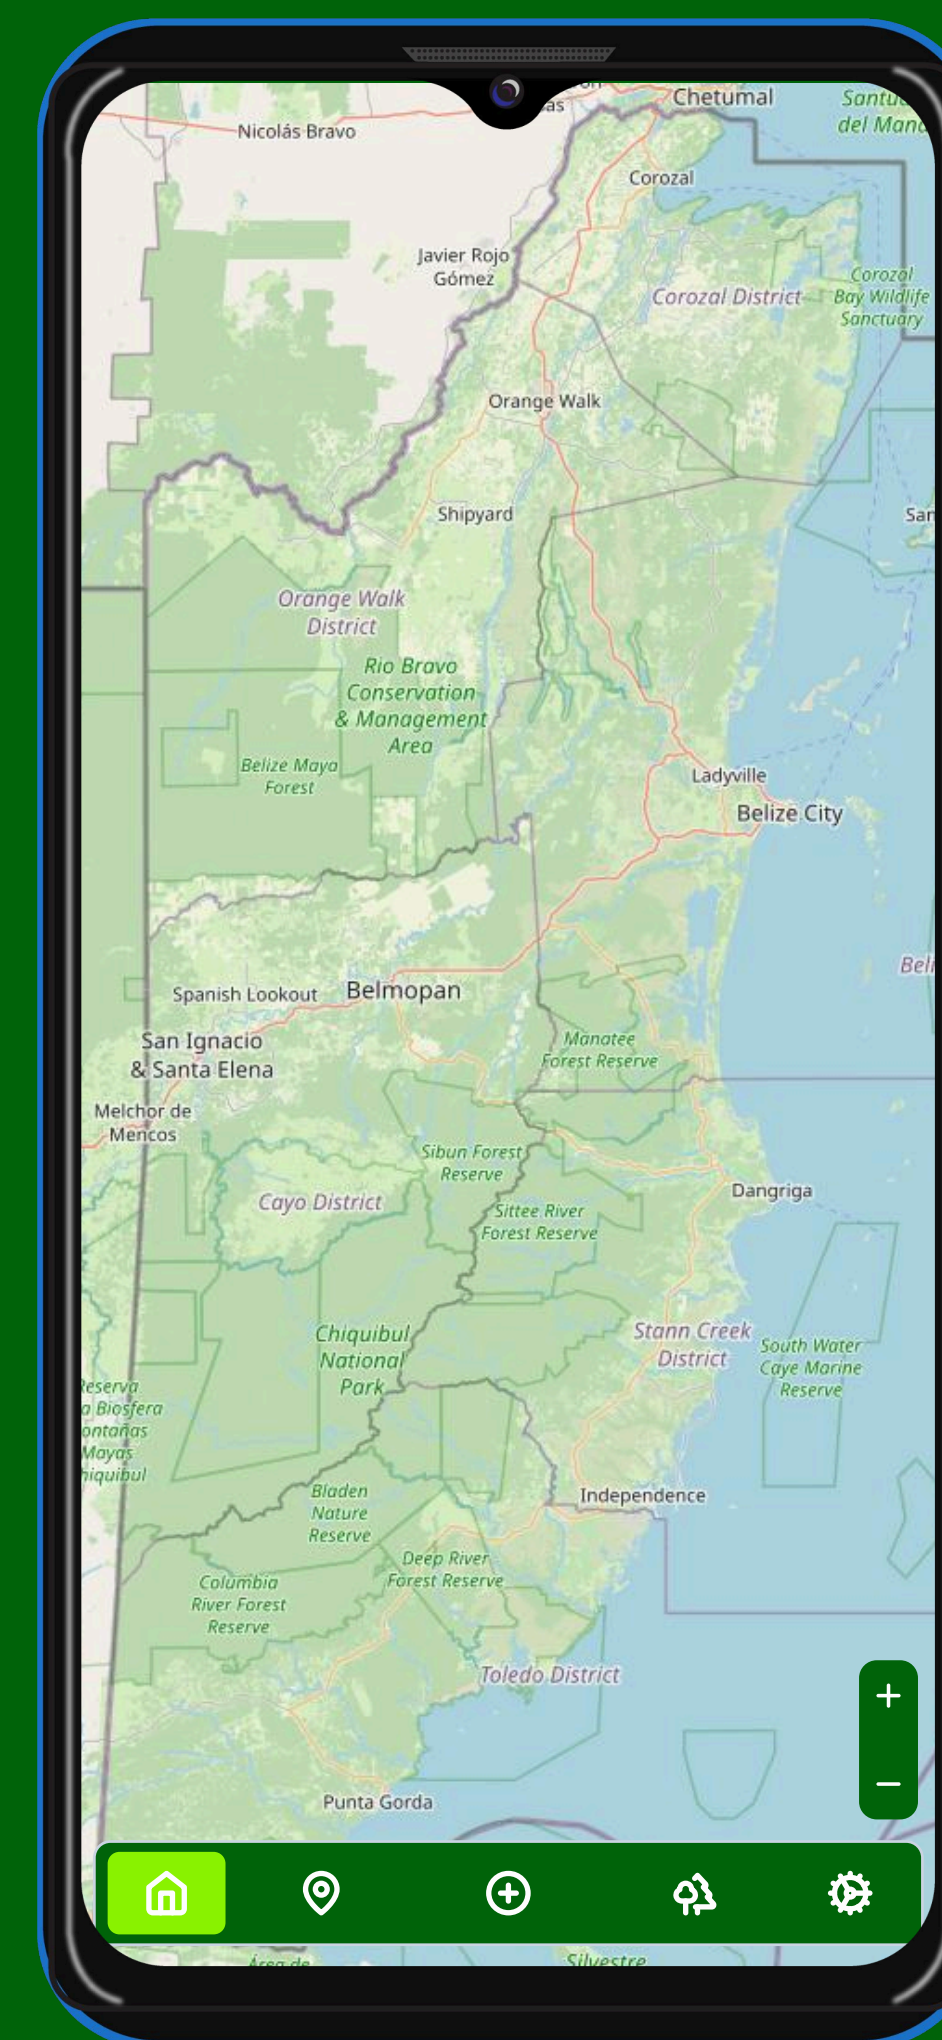

Group 2 — CMPS4131
